

WE LOVE ...

This open-plan kitchen features clean lines and white cabinetry, which helps lighten the room. Plus, the “push-catch” joinery on the cupboards means there are no visible handles. All the Fisher & Paykel appliances have been carefully chosen for their modern, simple aesthetic, including the dish drawers, which have been carefully integrated into the cabinetry.

THE BRIEF ...

This kitchen was designed around a desire to entertain. The timber section in the “leather”-finished granite benchtop denotes a separate serving area. This space was created not as a work surface, but more as a breakfast bar or serving area. Day to day, this surface might display a fruit bowl or vase full of flowers, but when guests arrive, it’s the perfect space for cheese, crackers, and champagne. To add spatial flow, three Tim Webber Design “Ampel” pendant lights hang over the length of the island to provide a sense of linear movement.

GET THE LOOK

Transform the functionality and look of your kitchen with well-chosen lighting, appliances, and ceramics.

1. White milk jug, \$19, from Father Rabbit. 2. Fisher & Paykel induction 4-zone cooktop, \$2649. 3. Fisher & Paykel Ice & Water refrigerator, \$3199. 4. “Ampel” pendant light, \$495, from Tim Webber Design. For stockists, go to page 157.
